OBJECTIVE :

AI/ML-focused Computer Science undergraduate with hands-on experience in machine learning, deep learning, and NLP. Experienced in building, evaluating, and deploying end-to-end ML applications using PyTorch, Django, Flask, and Hugging Face. Strong interest in applied AI, data-driven systems, and research-oriented projects.

EDUCATION :

B.Tech – Computer Science & Engineering (2022-26)

Darshan University | C.P.I. : 8.14

H.S.C.E. (A GROUP) – G.S.H.E.B. (2021-22)

Shree P.V. Modi High School | Percentage : 65.69 %

EXPERIENCE :

- **Data Science With Python Internship – Coincent.ai (2024) :**
Gained practical exposure to data science and analytics by completing assigned tasks within deadlines.
 - **Teaching Assistant (Operating System) – Darshan University (2024-25) :**
Assisted students in understanding Linux fundamentals, command-line operations, and shell scripting.
-

PROJECTS :

- **Resume Scanner and Resume Screening Career Advisor (Research Based) | Jan 2026 :**
Developed a deep learning-based NLP model to analyze uploaded resumes and predict suitable job sectors.
Verify : https://huggingface.co/spaces/Poojan11/Resume_Screening_WebApp
Skills Learn : Pytorch, NLP, Hugging Face Space & Hub, PDF Parsing, Model Deployment, Gradio
- **IoT Security Detection Using Machine Learning (Research Based) | Jan 2025 :**
Developed a machine learning model to detect cyber-attacks in IoT systems.
Skills Learn : IoT (Fundamentals), Feature Scaling, Tkinter, Hyperparameter Tuning
- **Weather Type ML model | Sept 2024 :**
Developed a ML model achieving approximately 85% accuracy to detect current weather conditions.
Skills Learn : Pandas, Classification, XgBoost, Random Forest, Flask
- **Hate Speech Recognition and Blog Post web-app | May 2024 :**
-> Developed an NLP-based model achieving approximately **75% accuracy** in detecting abusive and hate speech.
-> Built a Django-based blog application to understand MVT architecture and implement CRUD operations.
Skills Learn : Django, NLTK, Python, Sql, Regression, Model Accuracy, GridSearch CV
- **Housing Price Analysis | Apr 2024 :**
Performed data analysis on Bangalore housing datasets based on property features and amenities.

Skills Learn : Python, Numpy, PowerBI (basic), data analytics, data cleaning, feature engineering, data visualisation

ACHIEVEMENTS :

- **Published Sci-fi Book at AmazonKindle and Pothi | Oct 2025 :**
Authored and self-published a science fiction novel titled *ELECTROMYSTERY-1 (THE BUILD)*.
Verify : <https://amzn.in/d/0YzLcSH> (e-book) | <https://store.pothi.com/book/poojan-doshi-electromystery-1/> (book)
 - **Runner-up Ex-Quiz-It, Frolic'24 | Darshan University 2024 :**
Secured runner-up position in a quiz competition during Frolic 2024.
 - **Machine Learning Specialization by DeepLearning.ai, Stanford University, Coursera | Dec 2023 :**
Completed a three-part ML specialization series which gains a strong foundational understanding of ML concepts.
 - **All Gujarat 8th | All Rajkot 2nd | Sandesh Quiz Competition | 2019 :**
Secured All Gujarat Rank 8 and All Rajkot Rank 2 at Sandesh Quiz Competition 2019.
-

VOLUNTEER WORK :

- **Contribution at Minu Sunday School :**
Taught basic mathematics to underprivileged students for three months during Sundays.
-

SKILLS :

- **Programming Languages :** Python (intermediate) , Java, C
 - **Database :** MsSQL, SQLite, MongoDB (basic)
 - **Technologies :** Machine Learning, Deep Learning, Natural Language Processing, MVT Architecture, Figma (basic), Linux
 - **Frameworks :** Django, Flask, Pandas, Numpy, Matplotlib, NLTK
 - **Platforms :** Hugging Face, Github (basic), Shell Scripting (basic)
 - **AI Skills :** Data Cleaning, Data visualisation, Feature Engineering, Model Training & Evaluation, Data Analytics
 - **General Skills :** Excel (basic), OOP, DSA, Time & Stress Management, Team Work, Prompt Engineering
-

HOBBIES :

STORY WRITING | TEACHING | ORATORY | DEBATING | CURRENT AFFAIRS | COOKING | CRICKET | ACTING | TRAVELING

LANGUAGES :

ENGLISH (PROFESSIONAL) | HINDI (NATIONAL) | GUJARATI (NATIVE)
